

BEHOLD THE THEREMIN!

The only
musical instrument
played by not touching it!

Audio
Fun For
EVERYONE

**Professor
Wes Weasely**
invites you to make your own music.

Known for its weird effects in
movie soundtracks and even pop songs,
the Theremin's unique tone modulation is
now available for your guests' enjoyment.

By simply waving one's
hands around the electromagnetic antenna, audiences young and old are enthralled as they
individually create distinct sounds ranging from spooky to whimsical to spacey

Portable and self-contained, this is the perfect roving act. **Interactive fun** for both player and
curious bystander, the **Theremin provides great entertainment** for waiting lines, conventions
and parties -- almost any event -- indoors or out. **Children love it! Adults do too!**

Mark Wenzel, with 30 years of fair, festival and theme park experience, portrays the mad scientist
Professor Wes Weasely -- a guaranteed hit with his magical, musical Theremin!

An Absurd Audio Attraction for Any Affair. Safe and Sanitary!
